

QUALITY POLICY

The Quality Policy results directly from the Company's strategy developed by the Company's management.

The main purpose of "Eco – Tech" Ltd. is to work successfully in the field of design, manufacturing and installation of waste water treatment plants and systems for industrial and domestic treatment.

With the implemented Quality Policy, the Company strives to follow the continuous improvement of its products and processes through good organization and beneficial relations with all stakeholders, especially with customers, employees and suppliers.

The Management identifies the following success factors:

- maintaining already built image to the client, maintaining confidence by meeting the quality requirements and delivery terms;
- flexibility and timeliness.

To implement the Quality Policy the Management of "Eco – Tech" Ltd. takes the responsibility to:

- to be guided by the principles of the Quality Management System;
- to organize its activities in accordance with the legislation in force;
- to improve the resource efficiency;
- to improve the employees competency;
- to ensure and maintain efficient working environment;
- to expand the business relations in mutually beneficial conditions;
- to improve the implemented Quality Management System ;
- to increase customer satisfaction;

To achieve these goals, the Management of "Eco-Tech" Ltd. has developed, implemented and maintain a Quality Management System in accordance with the requirements of the International Standard ISO 9001: 2015.

The Management of Eco-Tech Ltd. has established conditions for compliance with the requirements of the Quality Management System in the organization and for the active participation of the employees in its development.

As a General Manager of "Eco-Tech" Ltd., I declare my personal involvement and responsibility for the implementation of the declared Quality Policy.
